

AD06002

A motion by SLAC for a rule relating to healthcare definitions:

ARTICLE III – REQUIREMENTS EACH STATE MUST ACCEPT TO PARTICIPATE

Rule 327: Library of Definitions

Rule 327.3 Healthcare Definitions

1. Member states enacting product-based exemptions for defined healthcare products or utilizing the defined healthcare terms in entity or use based exemptions shall include all products within each defined term unless specific exceptions are provided for in the definition. The attached chart, which is not an all inclusive list of all products within each defined term, is the placement of products within the correct defined healthcare term included in Part II of the Library of Definitions. Each member state shall utilize the defined terms and the placement of products within each of the defined terms if a member state adopted any of the healthcare definitions contained in Part II of the Library of Definitions. Where a product is not included in the list, member states shall use the list as guidance in placement of products within the defined terms.
