

Whereas, the member states of the Streamlined Sales Tax Governing Board have invested much time, effort and expense in simplifying their sales tax systems; and

Whereas, simplification in and of itself will result in a mandate for businesses to collect; and

Whereas, passage of Federal legislation is the logical outcome of the state effort; and

Whereas, the member states of the Streamlined Sales Tax Governing Board have a vested interest in passage of such Federal legislation; and

Whereas, the voice of the Governing Board should be an integral part of the discussion on Federal legislation; and

Whereas, it is in the best interest of the Governing Board to designate one person to speak on behalf of the Governing Board with regard to Federal legislation:

Now, therefore let it be resolved, by the Executive Committee of the Streamlined Sales Tax Governing Board that its President or the President's designee be designated as the official representative of the Streamlined Sales Tax Governing Board for the purposes of representing the Governing Board on matters pertaining to the Federal Streamline legislation.
