Step 4 - Indicate Seller Registry Status

Instructions - You must check one box for each state:

- A - If you will have sales in a state that you are not currently registered in, check the box in column A.
- B - If you will NOT have sales in a state that you are not currently registered in, check the box in Column B. If you check column B you will be registered in that state, but will not be required to file a return. If you begin making sales in that state, contact that state to determine your filing frequency.
- C - If you are already registered directly with a state to collect sales tax, check the box in Column C. You will remain on your current filing frequency for filing returns unless the state notifies you of a filing frequency change.
- D - If you are already registered directly with a state to collect sales tax and do not anticipate making sales in this state, check Column D. If you begin making sales in that state, contact that state to determine your filing frequency. The state has the authority to change your filing status/frequency if you have previously filed a return in the state.
