A seller, other than a Model 1 seller registering under the Agreement, may elect for one or more of the member states, to register as a seller which anticipates making no sales which would be sourced to the state pursuant to the terms of this Agreement.
- B. The member states agree not to require the payment of any registration fees or other charges for a seller to register in a state in which the seller has no legal requirement to register.
- C. A written signature from the seller is not required.
- D. An agent may register a seller under uniform procedures adopted by the member states.
- E. A seller may cancel its registration under the system at any time under uniform procedures adopted by the governing board. Cancellation does not relieve the seller of its liability for remitting to the proper states any taxes collected.
- F. A seller, other than a Model 1 seller, may elect to be treated as a seller which anticipates making no sales into a state for an individual state under the system at any time it has not had sales into such state for the preceding 12 months. Such election does not relieve the seller of its agreement to collect taxes on all sales into such state or its liability for remitting to such state any taxes collected. If the seller subsequently makes sales into such state it is then required to file returns for that state and to collect and remit tax in accordance with Sections 318 and 319.

The seller will be automatically registered in such state but may elect to register in such state as a seller which anticipates making no sales into such state.
- I. Upon registration, the governing board shall provide to the seller information regarding the requirements and options for filing a simplified electronic return and for filing remittances in any member state. Member states may provide information to sellers concerning other tax return filing options in that state.
- J. The governing board shall cause the system for registering under the Agreement to include a feature that allows sellers registered under the Agreement to update relevant registration data in the system and have such updated data provided to all member states. The governing board shall establish conditions and procedures to allow states which are not members of the Agreement to participate in the registration system.
