Thank You for Registering through the Streamlined Sales Tax Registration System

You are registered to collect, report and remit sales and use tax in all the states listed below.

Most states will send you their specific registration and reporting information within 15 days and will let you know if additional information is needed. If you do not receive reporting information from a state, it is your responsibility to contact that state to determine your reporting requirements.

You are required to collect and remit sales tax to each state beginning with your "Registration Date."

Sales Tax returns are filed and the tax is paid directly to each state using the state's online filing system based on the filing frequency that state provides. You will need to set up your account with each state's online filing system using the registration information the state sends you. Returns must be filed even if you have no sales in that state.

If you indicated you plan to contact a CSP, you are responsible for contacting the CSP to discuss their services as provided under the Streamlined Sales and Use Tax Agreement.

If you have contracted with a Certified Service Provider (CSP) and that CSP registered your business, the CSP will file your returns with each state.
