3. DOWNLOADING

Use Chrome, Foxfire or an Internet browser other than Internet Explorer.

Download does not work in Internet Explorer.

Files are downloaded in comma delimited format (CSV).

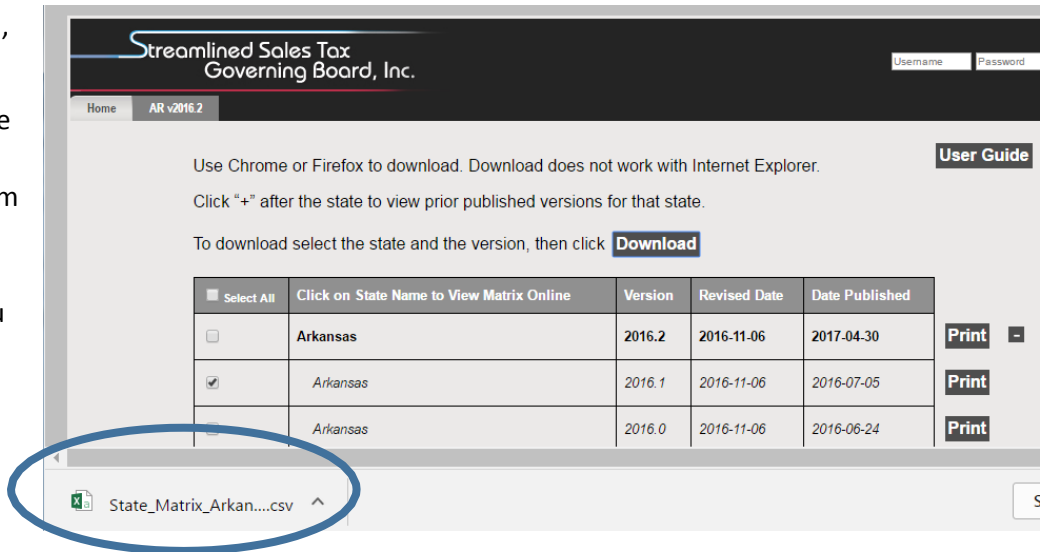

There are two ways you can download a state taxability matrix.

To download a matrix(s):

Option 1

1. Click in the check box next to the state and the version you want to download.
or Click "Select All" if you want to download all states.

2. Click the 'Download' button. Your screen should indicate a file has been downloaded (bottom left hand corner). Depending on the type of browser you are using this message may be different than the one shown.

Option 2

- Click the 'Download' button when viewing the actual matrix.

4. UPDATING

Complete the following steps to edit the taxability matrix or certificate of compliance:

- A. [Log In](#)
- B. [Open Matrix to Edit](#)
- C. [Edit or Update Matrix Content](#)
- D. [Submit F0020 – Request Matrix be Published](#)
- E. [SST Admin Publishes and Updates Website](#)

Save your changes often!

A. Log in to the Online Taxability Matrix or Certificate of Compliance.

SST Admin assigns authorized state users User Names and Passwords.

1. Enter your 'User Name' and 'Password' in upper right corner and click "login".

The screen will show that you are logged in.

2. Click on your state name. Your matrix will be displayed with a tab at top for "Edit."
 - You can only edit your state's Taxability Matrix and Certificate of Compliance
 - If you click on another state's matrix, the "Edit" button will not be displayed.

B. Open Matrix or Certificate to Edit.

1. Click on the 'EDIT' tab
2. A pop-up box will indicate you are about to create a new version of the matrix. Click "OK" to continue.

If you do not get this popup box it means someone had previously opened your file to edit but that version was **NOT** published. Please do the following:

- a. If SST Admin has **not** made any updates to the matrix, review for any changes made when the matrix was previously opened to edit, then continue with your updates.
- b. If SST Admin made updates to the matrix (e.g., added definitions, disclosed practices, etc.) you will not be able to see the updates until the matrix version previously opened to edit is published. Check to see if any changes were made to the matrix that was previously opened to edit:
 - If yes, provide a F0020 listing those changes and request that matrix version be published.
 - If no, on the check list at the top indicate it is a date change only and not under changes that no changes were made, save and click on the F0020. Send the F0020 to SST IT Director to request that version be published.

After that version is published when you open the matrix to edit, you will then get the popup box asking if you want to unpublish and credit a new version. The new version will have a new version number and will include the updates SST Admin made.

3. Click "Edit" again to open the new version.

- The new version is **NOT** displayed to the public until SST Admin publishes it.
 - A new version of the matrix is displayed showing "White boxes" for data you may change.
- Changes made by SST Admin from the last version will be highlighted.
- The Publish Date will be blank.
- A New Version number is displayed at the top.

Version Numbers: The Governing Board approves the updates for the next state’s recertification at the May meeting. That version is numbered with the year it is approved for. All updates to that year’s matrix will start with the same year. For example, the 2017 matrix is approved at the May 2017 meeting. States will complete this version by August 1, 2017. That will be Version #2017.0. Changes after that will be numbered 2017.1, 2017.2 etc.

C. Editing

1. Enter the **Effective Date**. This is the date taxpayers should start using this version. Remember: The new version should be published ahead of the effective date by at least 10 days to provide CSPs and sellers sufficient notice to make changes beginning on the effective date. The effective date may be the current date or any date in the future. Effective date should not be prior to the revised date.
2. Enter the **Date Revised** (Date you made changes and submit the change to the SSTGB to be published.)
3. Check the boxes for the types of changes made.
4. List the reference numbers for the items that were changed. A brief description of change may be provided (e.g., #51050 changed to exempt, #12022 added law reference, etc.).
5. Enter changes. Highlight your changes. It is recommended you enter the effective date of any taxability changes in the comment. For example, if you currently exempt clothing, but due to a law change clothing becomes taxable on October 1, 2017. Comment: Effective 10/1/2017 Clothing is taxable.

A box allowing you to edit and highlight a field display when you click in the field.

Reference Number	If yes, indicate the tax treatment during your state sales tax holiday for the following products.	Amount of Threshold	Taxable	Exempt	Statute/Rule Cite	Comment
20060	All Energy star qualified products. If only specific energy star qualified products or energy star qualified classifications, list those below.	\$0	<input checked="" type="radio"/>	<input type="radio"/>		<div style="border: 1px solid gray; padding: 2px;"> A B <i>I</i> <u>U</u> S </div>

For typos or name changes that don’t require a new version complete F0020, found in library under forms. Do not open the matrix for editing. SST Admin can make those changes to the current matrix without publishing a new version.

Taxability Matrix Instructions

The State must complete all four sections of the Taxability Matrix.

- Section 1.A – Administrative Definitions
- Section 1.B – Sales Tax Holidays
- Section 1.C – Product Definitions
- Section 2 – Tax Administration Practices

Instructions for Sections 1.A, 1.B and 1.C of the Taxability Matrix

Each item listed in Sections 1.A, 1.B and 1.C is defined in the Library of Definitions in the Streamlined Sales and Use Tax Agreement (SSUTA). Refer to Appendix C of the SSUTA for each definition.

“Taxability Treatment” and “Definition Treatment”

Do not enter any comments or qualifications in the two columns under the heading “Treatment.” The “Treatment” column should only include an “X” or a “%” where applicable.

1. Product definition adopted by your state:

- a. Place an “X” in the appropriate column under the heading “Treatment” to indicate the treatment of each definition in your state.
- b. Enter the applicable “Statute/Rule Cite.”
- c. Enter any additional comments that are needed in the “Comment” column.

2. Product definition was not adopted by your state:

- a. Place an “X” in the appropriate column under the heading “Treatment” to indicate the treatment of each definition in your state.
- b. Enter “NA” in the column under the heading “Statute/Rule Cite.”
- c. Enter any additional comments that are needed in the “Comment” column.

A state may tax a defined product but not include that specific product definition in their laws. For example, a state may tax all tangible personal property unless otherwise exempt. This would include items such as clothing. Therefore, the state does not need to adopt the definition of clothing.

3. Product definition in the Library of Definitions adopted with a qualification not specified in the SSUTA:

- a. Do not place an “X” in either column under the heading “Treatment.”
- b. Enter the applicable “Statute/Rule Cite.”
- c. Enter a comment explaining the qualification in the “Comment” column.

In accordance with the SSUTA, your state must adopt the definitions in the Library of Definitions that apply to your state without qualifications, except for those allowed by the SSUTA.

Liability Relief for Sections 1.A, 1.B, and 1.C - Library of Definitions:

Sellers and certified service providers are relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state relative to treatment of the terms defined in Sections 1.A, 1. B and 1.C of the taxability matrix.

To the extent possible under each state’s laws, sellers and CSPs are also relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax until the first day of the calendar month that is at least 30 days after notice of a change to Sections 1.A, 1.B, or 1.C of the state’s taxability matrix is submitted to the governing board, provided the seller or CSP relied on the prior version of the taxability matrix.

Instructions for Section 2 of the Taxability Matrix

Tax Administration Practices

The Streamlined Sales Tax Governing Board (SSTGB) has approved “tax administration practices” for each of the products, procedures, services, or transactions identified pursuant to Section 335 of the Streamlined Sales and Use Tax Agreement (SSUTA).

Use of the term “State” in each practice refers to the state completing the matrix.

Tax Administration practices are further described in Appendix E of the SSUTA.

1. For each tax administration practice identified in this matrix that your State follows:
 - a. Place an “X” in the “Yes” column
 - b. Enter the statute or rule that applies to your state’s treatment of this practice in the “Statute/Rule Cite” column.
 - c. If necessary, provide additional comments in the “Comment” column.
2. For each tax administration practice identified in this matrix that your State does not follow:
 - a. Place an “X” in the “No” column
 - b. Enter the statute or rule that applies to your state’s treatment of this practice in the “Statute/Rule Cite” column
 - c. If necessary, describe your state’s practice in the “Comment” column.

Conformance to a tax administration practice by a state is voluntary and no state shall be found not in compliance with the Agreement if it does not follow a tax administration practice adopted by the SSTGB.

Liability Relief for Section 2 - Tax Administration Practices:

To the extent possible under each state’s laws, sellers and CSPs are relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax resulting from the seller or certified service provider relying on erroneous data provided by the member state relative to the tax administration practices contained in Section 2 of the Taxability Matrix.

In addition, **to the extent possible under each state’s laws**, sellers and CSPs are also relieved from tax liability to the member state and its local jurisdictions for having charged and collected the incorrect amount of sales and use tax until the first day of the calendar month that is at least 30 days after notice of a change to Section 2 of the state’s taxability matrix is submitted to the governing board, provided the seller or CSP relied on the prior version of the taxability matrix.

D. Save Changes

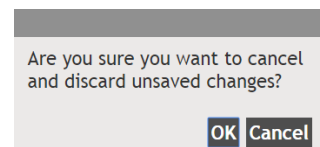

Save your changes often!

1. Save Changes - Click the “Save” button at the top of the page. A popup will display showing “Changes Saved.” Click OK to continue.
The screen will then display the saved version with your changes.

IMPORTANT: It is important that this pop-up box appears and that you click on the ‘OK’ button. If you do not get the popup box, your changes have not been saved.

2. Cancel Changes - Click OK to cancel changes and revert back to the last version published or Cancel to continue with your changes.

3. Edit a "Saved" version that has NOT been published - Click on Edit. The saved version will display to allow you to make changes. (Once in edit mode (with the displayed white boxes) be sure to check the version number to ensure you are editing the right document.)

E. Submit Form F0020 - Request to Published

After changes are completed and saved, Create **Form F0020** by clicking on the F0020 button, save the form and email to the SSTGB IT Director.

If necessary, you can make changes on the F0020 prior to saving the document as a pdf.

You can recreate Form F0020 for unpublished versions by going to Edit and clicking on the F0020 button. The form will show the last saved information.

Date Requested is the date the request to publish is made and is auto filled using the date the form is created.

The new version will be published as soon as possible once the request is received.

Note: CSPs have 10 days to comply with changes to the Taxability Matrix for purposes of liability relief. It is important to publish these changes 10 or more days before the effective date of the changes. Effective dates of changes should be noted in the comment column. The Taxability Matrix is the official notice to the CSPs of these changes.

For **typos or name changes** that don't require a new version, complete F0020A, found in SST library under forms. Do not open the matrix for editing. Send form F0020A to SST Admin. SST Admin can make those changes to the current matrix without publishing a new version.

F. SST ADMIN Publishes Matrix and updates Website

SST Admin Publishes Matrix (as soon as possible after receiving the Request to Publish.)

- SST Admin downloads the new version and runs a comparison of the new version to the last published version.
- SST Admin emails F0020 and the comparison document to the state, SST Executive Director, SST Research Director.
- SST Admin emails F0020 to CSPs as notice of changes to Tax Matrix (in lieu of TC0001 State Change Request).

SST Admin updates website to new version in library.

4. Compare Tool

Use the Compare Tool to compare two versions of a state's Taxability Matrix or Certificate of Compliance.

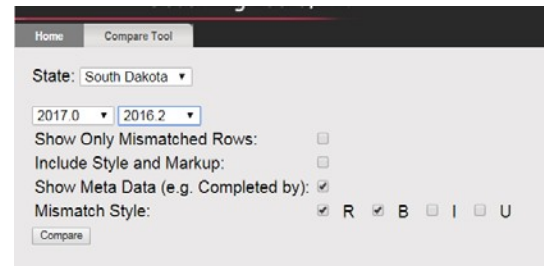

A state may compare an edited, but not published document to a previously published document. This will allow you to check your changes prior to sending the F0020 in to have it published

1. Select the Compare Tool Tab at the top.
2. Select the state from the drop-down list.
3. Select the Versions you want to compare from the drop-down lists. The order you select only affects which version is listed first. It will not affect the changes that are displayed.
4. Select how you want the changes displayed.

Examples of Comparison Display

The entire lines that contain changes will be displayed. You will need to compare each line to determine what the change was. Changes in the document as well as changes the state makes will be shown.

The following is an item that was added to the 2017.0 form. Changes are shown in red, italics, or underlined.
